

New Decorating Ideas

with Ceramic Tile

Discover the decorative ways of tile ...

In this booklet you will see ceramic tile used by leading decorators and designers in all sorts of interesting new ways and places in homes. You will see it in entrance halls, family rooms, dining areas, laundries . . . on walls, floors, countertops, window sills . . . even outdoors on patios. For ceramic tile is far too beautiful and versatile to be used only in bathrooms and kitchens.

And today, ceramic tile offers such a sparkling variety of colors, sizes, shapes and textures to inspire your decorating! The illustrations on the following pages show many different types of American Olean tile used in fresh decorative effects that may suggest new design ideas to you. You will see:

Glazed Wall Tiles in sparkling bright or soft matte finishes in 54 decorator colors.

Crystalline Glazed and Scored Tiles to add rich texture and design interest to floors, walls and countertops. (See these on pages 4, 5 and 15.)

Decorated Tiles and jewel-bright Sparklets* in a variety of colorful designs to add individuality to walls. *Trademark

Precedent Ceramic Mosaics, velvet-toned unglazed tiles for floors and walls in random or formal patterns designed to harmonize with glazed tile colors.

Murray Quarry Tiles in warm, natural earth tones—handsome and hardy on floors in busy areas, inside and out.

And what could be more practical than decorating with tile?

- Tile is stain-proof, dent-proof, fire-proof, scratch-proof.
- Never needs waxing, polishing, refinishing.
- Wipes clean with just detergent and water.
- Permanent—no upkeep expense.
- Adds to the resale value of your home.

Whether you're building or remodeling, ceramic tile can easily fit into your budget. The installations shown are all designed for modest or moderate priced homes.

See your American Olean Tile Contractor for samples, free estimates and a beautiful tile installation. He's listed in the Yellow Pages of your telephone directory under "Tile—Ceramic".

Color Harmony Made Easy

Because American Olean tile colors are coordinated within nine popular color families, it is easy to select floors and walls that blend harmoniously. In this handsome kitchen, the harmony is especially pleasing, combining softly muted tones of Vellum and Crystalline Buckwheat on walls and counter with warm beiges and browns in the textured ceramic mosaic floor. A few gay decorated inserts add charm and character to the whole.

Against such a background, accessory colors can be as bold and bright as you wish. Choose vivid flame tones as here—or flashing blues, sharp greens, sunny yellows—for striking effect. Change accessory colors as often as you wish; your tile will still look beautiful.

Crystalline Glazed and Scored Tile Add an Elegant Look

Use crystalline glazed and scored tile for the newest look, anywhere in your home. Its subtly textured, softly lustrous surface brings special richness and warmth to your decorating schemes. Its rugged glaze makes it practical for floors as well as walls.

Crystalline glazes are available in 17 beautiful colors and in four interesting Scored Tile designs. See page 15 for colors and designs.

The scored designs are unusually decorative and versatile. They can be combined with other scored or unscored tiles to create many handsome patterns.

Crystalline and scored tile is ideal for walls, countertops and floors in bathrooms, powder rooms, kitchens, laundries and utility rooms. It is popular also in entrance areas, recreation rooms, and around fireplaces.

Kitchens that are color-bright and care-free

Tile's wonderful work-saving ways make it worth its weight in gold in your kitchen! Think of the hours and hours of clean-up time tiled walls and countertops will save you. Hot pots can't scorch tile; splattered grease, spilled food, strong disinfectants can't hurt it. You never have to wax a tiled kitchen floor. A quick

swish of a mop keeps it at its colorful best. High heels and chair legs will not indent it. Only tile gives you all this and such decorative beauty too.

So many good places for tile! Wherever you use American Olean ceramic tile, you add beauty and end care problems. In TV or family rooms, tile adds so much to your leisure hours—looks handsome while it lets you relax.

In serving areas, tile's decorative moods can be as elegant and formal—or as bright and gay—as your own.

In entrance areas, tile welcomes guests warmly—creates a distinctive first impression of your home.

Outdoors the hardy earth tones of Murray quarry tile add lasting beauty to patio, porch or walk.

Bathroom Beauty at Your Fingertips!

With tile's wealth of color and design at your command, there's no reason why your bathrooms shouldn't be as distinctive as you wish—reflecting your own tastes and practical needs. And it costs no more with tile. The bathroom above looks like a custom installation yet it uses only standard American Olean tiles. The few decorated tiles in the tub area add an immediate touch of individ-

uality at very little extra cost. Crystalline glazed and scored tile adds the warmth of texture. See how the lovely rose tones of the Sea Shell decorated tile are picked up and repeated on walls, countertops and in the Precedent ceramic mosaic floor, bringing color unity to the overall scheme.

Take your pick from American Olean's sparkling palette of tile colors and have just the effect you want. Cool and elegant with blues or greens, charming and cheery with sunny yellows or warm pinks . . . or use neutral beige and gray tones, accented with bright towels. Don't forget to plan for plenty of towel bars, soap holders and other bathroom accessories. American Olean offers a complete line, in colors to match your tile.

American Olean

CERAMIC TILE

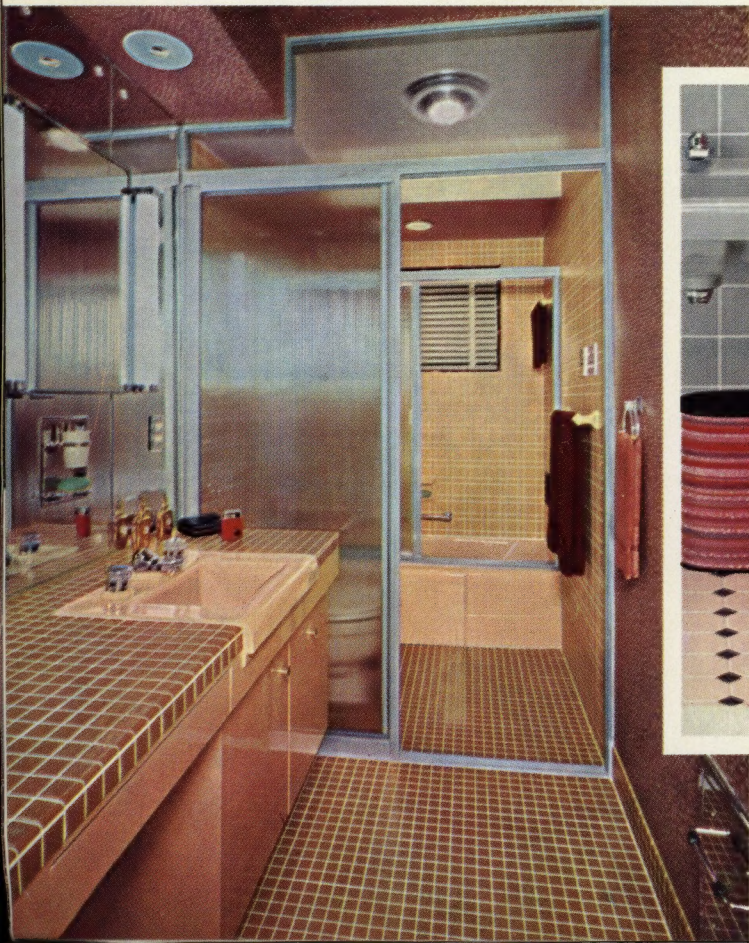

Elegance comes naturally with tile. No other material can ever give you tile's rich effect in a bathroom—its matchless look of quality. Yet for all its luxurious appearance, a tiled bath or powder room makes such good sense. Only tile will stay beautiful and new looking through years and years of splashing and splattering. Only tile is so easy to keep sparkling and sanitary.
